

CONSULS INFORMATION SERVICES COMMITTEE – 2008-2009
Submitted by Barbara Meagher, CCSU

The committee meets periodically to discuss issues with or changes to the public version of the OPAC.

Previous meetings have included discussions of the new WebPac Pro version of Consuls. Implementation of new features such as, right result relevancy ranking for keyword searching, RSS feed builder and customization of the OPAC icons were considered.

There is usually a round table update from each institution, including activities and changes at each of the libraries.
